DETAILED ACTION

Allowable Subject Matter

1. Claims 5 and 6 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not teach having the display light with an angle of 45° relative to the vertical axis of the image plane, having the light reflect at Brewster's angle to the observer, and then having the un-reflected beam rotated by an angle of 45° to become P polarized light which can then pass out of the transparent plate without reflection.

Claims 5 and 6 are therefore allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
